FOLD BACK BOWLESS SOFT TOP

RT Off-Road's Bowless Soft Top installs directly over the factory roll bar. It requires no additional supports and still maintains a snug fit. This design allows for larger side windows to improve visibility. When the side and rear windows are removed, the top converts into an open air safari top. This top also has a fold back sun roof feature and tinted windows.

HEAVY DUTY TUBE BUMPER

Introducing RT Off-Road's Front Rock Crawler Bumper. This heavy duty winch-ready bumper will eliminate any possibility of damage to the grille and fender area of the Jeep[®] as well as functioning as a recovery point. Installation is as simple as removing the factory bumper and installing the Rock Crawler Bumper.

Color	Position	Description	Part #
Black Textured	Front	Accepts most winches up to 9,000 lbs. 2 D-Ring Mounts. Full fender-to-fender protection. Easy No-Drill Installation.	RT20015

HEAVY-DUTY PLATE STEEL BUMPERS

RT Off-Road's Front Bumper is a heavy duty plate steel constructed upgrade over the factory bumper. The 3/18" plate steel and tubular steel construction is protected with a durable textured black powder coat. Bumper includes winch mount, winch fairlead mounting holes, D-Ring mounts with D-Rings, and additional holes for mounting lights. Includes all hardware needed for installation, installs into factory locations, and does not require any drilling or modification.

07–18 JK WRANGLER

FRONT TUBE BUMPER

RT Off-Road's Double Tube Bumper design is sure to freshen up the look of your vehicle. This Tube Bumper is constructed out of 3" diameter tubing with a durable powder coat finish. The design allows for the use of the existing factory holes and require no additional drilling or modifications. Mounting hardware is included.

FRONT SKID PLATE

RT20043

10-18 JK WRANGLER

Replace the factory plastic brush guard with a Heavy Duty Plate Steel Skid Plate. Keep the electronic sway bar disconnect and steering components safe from rocks, brush, and any potential contact. Direct bolt-in design using existing holes. Designed for use with aftermarket bumpers.

Description	Part #
Black Semi-Gloss Powder Coat Finish; 3/16" Plate Steel Construction; Drilling not required; Includes all hardware needed for installation	RT20043

EVAP SKID PLATE

Remove any concern when traversing an obstacle by installing an RT Off-Road Evap Skid Plate in place of the flimsy factory sheet metal vapor canister skid plate. It is a direct bolt-in design using existing skid plate holes. All the factory lines and wiring will still reach the vapor canister so there is no danger for pesky check engine lights.

07–11 JK WRANGLER

Description	Part#
Matte Black Powder Coat Finish; 3/18" Plate Steel Construction; Drilling not required; Includes all hardware needed for installation	RT20023

FENDER FLARES

Part #

RT26085

Give any JK a fresh look while increasing the tire clearance for improved suspension articulation with a Fender Flare Kit from RT Off-Road. Each Flare is manufactured of steel and is finished with a textured black powder coat. Included in each kit are 4 Fender Flares and all the hardware needed for installation.

07–18 JK WRANGLER

Description • Increases Tire Clearance for Improved

- Increases Fire Clearance for Improved Suspension Articulation
- Steel Construction
- Textured Black Powder Coat Finish

NEW

SHOCK BAR PIN ELIMINATOR KIT

Part #

RT27068

Converts bar pin mounting to double-shear mounting while also lowering the frame end of the shock 1" for increased strength and bushing life. Also allows for the use of a more universal shock absorber.

07–18 JK WRANGLER

Description Rear, Upper, Left & Right

DROP PITMAN ARM

Improve steering performance with RT Off-Road's Drop Pitman Arm. Lifting your Jeep[®] without addressing the steering angles often times results in bump steer and decreased turning radius. Installation of this Drop Pitman Arm will reduce the operating angle of the drag link, resulting in improved steering feel and less wear on steering parts. Each Arm is designed to bolt in place of the factory piece with no interference issues.

07–18 JK WRANGLER

DescriptionPart #LHD, up to 6" LiftRT21036

SHOCK BRACKET SET

Replace the ripped, bent, or broken front or rear axle side shock brackets with RT Off-Road's Shock Bracket Set. They can be easily modified to fit several other size tubes for a truly universal fitment. They are designed to mount the shock bushing parallel to the axle tube with enough space for oversized shock bodies to clear the axle tube.

UNIVERSAL

Description

Part #

3/16" Mild Steel brackets designed to fit a 3" axle tube; Features 1/2" RT25003 bolt hole; Sold in pairs

HEAVY DUTY STEERING STABILIZER

RT Off-Road's HD Steering Stabilizers are a perfect way of smoothing out any unwanted steering inputs from bumps in the road. Each kit features an oversized steering stabilizer with polyurethane bushings.

ADJUSTABLE CONTROL ARM SETS NEW

Improve your Jeep's drivability with a set of RT Offroad's Heavy Duty Adjustable Control Arm Sets. Each arm is constructed of 2" DOM Tubing finished with a matte black powder coat. The control arms feature a zinc coated forged end with 1.25" threads designed for heavy use. Each end features OE-style rubber bushings to retain the factory ride quality while still offering some articulation. The adjustability of these control arms will allow the caster and pinion angle to be tuned to factory specifications. Each kit includes a pair of fully assembled control arms.

HEAVY DUTY BALL JOINT SET

The "Heavy Duty" description is more than accurate with these Ball Joints. The newly designed Joint is leaps ahead of the OE with inner plastic bushings plagued with premature failure. These HD Ball Joints were manufactured with sintered metallic bushings. This new bushing is highly resistant to wear and damage. The assembly is greasable to extend the life of the already durable inner bushings, which are specifically engineered for vehicles with larger tires, lift kits, and heavier accessories. They install without any fabrication or modification to the factory mounts using tools that can be purchased or rented at a local parts store. The HD Ball Joints are also backed with an industry leading 12 month warranty.

HEAVY-DUTY DIFFERENTIAL COVERS

Protect valuable differentials with a Heavy-Duty Differential Cover from RT Off-Road. These Covers are constructed of 3/8" high-grade forged steel with a raised fill plug for extra oil capacity. They feature strengthening ribs to ensure a broken or peeled differential cover doesn't cut the day short. The mating surface is machined flat to ensure a leak-free fitment. All Covers are finished in a red or black powder coat and include flanged hex bolts as well as RTV.

- Constructed of 3/8" Forged Steel
- Mating surface machined flat to prevent leaks
- Raised fill plug for increased oil capacity
- Powder Coated Red or Black

BIG BRAKE KITS

RT Off-Road Big Brake Kits are the solution to the strain that oversized wheels and tires place on the braking system on any JK Wrangler. These Brake Kits feature calipers with a pair of 64mm pistons for increased clamping forces, resulting in increased piston area over the single piston calipers. The vented brake rotors give the braking system greater leverage. The end result of the Big Brake Kit when compared to OE brakes is a 22% shorter 60-0 distance! A 17" wheel is required. Brake Master Cylinder (Replaces Part #68091278AB) is also recommended for better brake pedal feel and greater braking performance. Wheel Spacers (Part # RT32004 or RT32013) are required when used with "Moab" Wheels, (identified by 5 large spokes.)

- Dual-Piston Calipers (Front Only)
- The front rotors are 13"
- The rear rotors are 13.5".
- Full Bolt-On
- No cutting, welding, or spacers required
- Includes everything needed for installation

HIGH PERFORMANCE BRAKE ROTORS

High Performance Brake Rotors Sets from RT Off-Road are designed for the most extreme abuse. These Brake Rotors were tested on: the steep descents in Moab, Utah; stop-and-go traffic in Boston, Massachusetts; and the long-range treks in-between. Each Brake Rotor is machine slotted and cross-drilled to provide maximum cooling. This rapid cooling helps eliminate brake fade and potential warping. The design rapidly expels friction gases, debris, and water from the rotor and pad surface. You can expect greater braking response, increased performance, longer life, and a sporty new look. Includes left and right Rotors.

Description	Part #
Front; With 11.89" Diameter Rotors	RT31025
Front; With 13" Diameter Rotors	RT31044

COMPLETE BRAKE KITS WITH DRILLED & SLOTTED ROTORS

High Performance Brake Kits couple our cross-drilled and slotted rotors with brake pads and a hardware kit which includes boots, springs, and pins. Replacing the pins and boots on your calipers will ensure that they will function at peak performance alongside the rotors. We offer everything needed to maximize braking performance, all in one box.

LED PARKING LIGHT SET

Equip your vehicle with an LED Parking & Turn Signal Light Set by RT Off-Road. Each lamp is constructed of an plastic body with a smoked polycarbonate lens. The 8 LEDs in each lamp produce an impressive amount of light without the need to upgrade the charging system of the vehicle. A 30,000 hour LED life means that these lamps are designed to last, even in the harshest conditions. Included is a pair of LED Parking & Turn Signal Lights. Bolts in with cutting or splicing.

LED HEADLIGHT BULB SET

Each bulb features 4 Cree LEDs that produce 1500 lumens at only 16.8 watts, resulting in an impressive amount of light without the need to upgrade the charging system of the vehicle. A copper weave cloth is used as a heat sink in place of a noisy and failure prone fan. The color output from these bulbs is 6500k. Included are 2 direct-fit LED Headlamp Bulbs. No cutting or splicing is necessary.

VEHICLE RECOVERY KIT

The RT Off-Road Vehicle Recovery Kit is the most convenient collection of recovery parts available. This kit contains everything needed to complete a complex winching operation as well as individual items that will aid in more simple situations. All items are stowed away in a heavy duty polyester bag. Be prepared and have the right tools ready for vehicle recovery.

- Includes: Recovery Strap, Tree Saver, Snatch Block, Two D-Rings, Winch Line Dampener, Gloves, and a Recovery Bag
- The Recovery Tow Strap is rated for 20,000 lbs. and features leather-wrapped ends.
- The Tree Saver is rated for 30,000 lbs. and is used to guarantee the well-being of trees when recovering with a winch
- Leather-Palmed Gloves and a winch line dampener are added to increase the safety of all persons using this kit
- The Recovery Bag is oversized to accommodate for storage of additional accessories.
