COMPLETE TOPS

RT Off-Road's Complete Soft Tops are complete top packages that include everything needed to install them. Kits include: Soft Top, Windows, Bow Assembly, and all hardware. Each top also includes soft top disconnects, a soft top storage bag, and storage pockets built into the top itself. The improved frame design and bow assembly increase ease of use, and allow the tops to easily fold down when not in use.

TAILGATE BAR & TONNEAU COVER KIT

Replace your broken or missing tailgate bar and add a cargo cover for when the top is off. This is a dual function product that can either be used with a soft top or by itself as a Tonneau/Cargo Cover. The bar assembly slides onto a channel for both your top and the Cargo Cover. The channel allows you to quickly change from a top to the Cargo Cover. The Cargo Cover keeps the valuables that you store behind your seat out of sight. The Tailgate Bar assembly installs in minutes into the factory location.

- Tailgate Bar and retainers work with factory and most aftermarket tops.
- Black denim Cargo Cover encloses space between rear seat and tailgate.
- Includes instructions.
- Includes Tailgate Bar, retainer mounts, Cargo Cover, and all necessary hardware.
- Cargo Cover can be removed and Tailgate Bar can be used with standard soft top.

WINDOW STORAGE BAG

Finally, a safe and convenient way to store a set of windows and upper doors. One of the most difficult things about taking the top off a Jeep® is finding a place to safely store the windows and upper doors. With our heavy duty canvas Storage Bag, windows and doors can now be stowed safely and conveniently behind the rear seat. The internal felt separators will ensure their safety while removed from the vehicle. Storage Bag works on most Jeep® vehicles with a soft top and upper soft doors.

HEAVY-DUTY BALL JOINT SET

The “Heavy-Duty” description is more than accurate with these Ball Joints. The newly-designed Joint is leaps ahead of the OE plastic bushings plagued with premature failure. These HD Ball Joints were manufactured with sintered metallic bushings. This new bushing is highly resistant to wear and damage. The assembly is greasable to extend the life of the already durable bushings specifically engineered for vehicles with larger tires, lift kits, and heavier accessories. They install without any fabrication or modification to the factory mounts using tools that can be purchased or rented at a local parts store. The HD Ball Joints are also backed with an industry leading 12-month warranty.

HIGH-PERFORMANCE BRAKE ROTOR SET

High-Performance Brake Rotors Sets from RT Off-Road are designed for the most extreme abuse. These Brake Rotors were tested on: the steep descents in Moab, Utah; stop and go city traffic; and the long range treks in-between. Each Brake Rotor is machine slotted and cross-drilled to provide maximum cooling. This rapid cooling helps eliminate brake fade and potential warping. The design rapidly expels friction gases, debris, and water from the rotor and pad surface. You can expect greater braking response, increased performance, longer life, and a sporty new look. Includes left and right Rotors.
